# DAILY WHIG AND COURIER.

JOHN S. SAYWARD, Editor.

FRIDAY, MAY 17, 1844.

## WHIG NOMINATIONS.

FOR PRESIDENT,  
**HENRY CLAY,**  
OF KENTUCKY.  
FOR VICE PRESIDENT,  
**THEODORE FRELINGHUYSEN,**  
OF NEW JERSEY.

SEE FIRST PAGE.

### Meeting of the Clay Club this Evening.

The members of the Bangor Clay Club will hold a meeting this evening at the City Hall, to hear the report of the delegates to the Baltimore Convention, and addresses upon political matters of interest at the present time. The whigs of the city generally are invited to attend and co-operate in measures calculated to advance the good cause during the Presidential canvass.

#### Launch of the Brig Dr. Hitchcock.

The brig Dr. Hitchcock was launched yesterday forenoon from the ship yard of the Messrs. Helyoke, in Brewer, opposite this city. A large number of persons were present upon both sides of the river to witness the spectacle. As the name of this brig has occasioned some inquiry and remark, we will state that Dr. Hitchcock of Boston, celebrated for his skill in the art of Dentistry and for his zeal in the cause of science, wishing to invest a portion of the capital which his success in business had yielded, and learning, through our fellow citizen John B. Foster, Esq., that ship building could be done as well and a little cheaper on the Penobscot than at other point, the Doctor concluded to invest his funds in a Penobscot built vessel, he taking one half of the Brig alluded to, and the other half being taken by Judge McDonald of this city, and a gentleman in Boston.

We think the Doctor will be pleased with his investment, and if she is as successful as he has been we may reasonably expect his funds will hereafter be invested in Penobscot ships. This Brig appears beautifully upon the water, and from the well known character of her builders, and the opinion of those qualified to judge, she may be pronounced a first rate vessel of her class.

#### Donation Party and Pick Nick.

On Wednesday afternoon several friends of Dr. Barstow made his family a donation visit, and a pleasant pick nick party assembled in a bower at Mount Hope, and partook of an elegant and bountiful repast. The tables, of which there were six or eight, were tastefully spread, and amply provided with every requisite for supplying refreshment to hundreds of persons.

Prior to partaking refreshments the party amused themselves by sauntering about the Mount, and gathering the various wild flowers that are so abundant in that vicinity, and the great beauty of many of which we attest, having been presented with two splendid bouquets by as lovely human blossoms as we ever happened to meet. Dr. Barstow was busy at his Green House disposing of his plants to customers, and all seemed social and happy. On gathering around the tables, the blessing of God was implored by Rev. Mr. West. After a pleasant season such as none who were present can soon forget the party separated in fine spirits.

The party, owing to the distance, the fresh wind and the dusty roads, and to the want of suitable arrangements in providing carriages for public conveyance, was not as large as was expected, and we fear was not as profitable to those for whose benefit it was given as was hoped.

#### Kenduskeag Bridge.

We stated a few days since the result of a slight personal examination of Kenduskeag Bridge, and the conclusion to which we arrived that it must speedily be repaired or rebuilt.—Since then the subject has been before the City Council, and by them referred to a large joint committee of which the Mayor was chairman. That Committee, composed mostly of practical men acquainted with such business, have thoroughly examined the bridge and made a report which has been accepted by the council.

No order has been taken in the council respecting the matter, and indeed there seems to be a general apathy, both in the council, and with the public, respecting the condition of the bridge; and a strong dislike to engaging in so much of an undertaking as that of either repairing or rebuilding it. Personally we feel a strong disposition to avoid the interruption to business which such an undertaking as rebuilding will cause, and as a citizen we should wish to avoid the expense. But we deem it important that the public should know the facts in the case, and where there is evident danger resulting from delay that they should attentively consider the matter, and act with suitable energy.

We understand the council will probably be called together in a few days to decide what shall be done with the bridge, & that the members may have the advice of our citizens, and all be prepared to act understandingly in the matter we here give all that is essential in the report of the committee.

The Committee report:

"That the Committee have examined the present state of said bridge with regard to its strength and soundness and find all the wooden materials between high water mark and the cap-sills very rotten and requiring immediate repair or to be rebuilt without delay; your Committee have made such enquiries and estimates as time

and circumstances would permit, and in the opinion the most thorough and permanent manner to rebuild said bridge would be to replace the old piers and abutments with a wall of granite 7 feet thick at the bottom, 3 feet at the top and extending from the foundation to the top of the bridge, about 20 feet, with a batter on the outside, of 4 feet; said wall would require to be 620 feet in length and would measure 2480 perches of stone at \$2,50, about the cost, would amount to \$6,200 to which must be added timber, plank, and labor for arches and side walks about \$400 making the whole cost \$7,000.

Your Committee would suggest another plan viz to commence at the bottom with a strong wood pier and build to high water mark, about 11 feet, and then build a wall of granite 6 feet wide at the bottom, 3 feet wide at the top, with 3 feet batter on the outside and 9 feet high, in this way about \$2,250, in cost would be saved; it is well known that wood will not decay below high water mark, and such a pier can be made sufficiently strong to bear up, without settling, any desirable weight of stone, and they believe it would be less liable to be pressed out by the pressure of the earth in the bridge than a wall built entirely of stone from the bottom and would be equally durable; as evidence of this they would invite you to examine the present state of the wood work in the bottom of the old bridge

which was first built in 1810, 34 years since and the logs show no marks of decay from time. The present top from high water mark up was built in 1831, and could probably be repaired with wood again for about \$2,500 and then would last 7 or 8 years without requiring much repairs, when it would begin to fail again and require what it now does. In making the repairs or rebuilding the bridge, the middle pier should be increased in width to conform to the market house foundation and the shore abutments proportionately shortened so that the water courses may be as open and free as they were before said foundation was laid down; in their present state it is very difficult and unsafe to get rafts down when the water is high, and quite impossible to get them up, your committee believe that the travelled way over said bridge, which is now filled with earth to the depth of about ten feet, ought not to be disturbed more than is absolutely necessary to secure the sides from falling out, as the expense of keeping this way in repairs is very trifling compared with that of supporting a wooden covering; the great travel over this bridge makes it desirable that interruptions for repairs be avoided as much as possible, and when done should be made in the most permanent manner consistent with prudence and economy. Whatever course you may think proper to adopt should be decided upon without unnecessary delay, as the best part of the season will soon be gone and the present bridge cannot be expected to stand through another winter.

Per order,  
**JACOB DRUMMOND.**

The loco papers wail lustily at the defeat of Mr McKay's Tariff bill in the House of Representatives. They have said so many hard things against the Whig tariff and denounced it in so many shapes, and lauded McKay's bill so grandiloquently, that the recent vote of the representatives of the people has quite frightened them out of their propriety. This vote, killing that bill is a strong admission the Whigs were right in forming the present Tariff bill. The friends of protection to home industry—the farmers of the United States who are so much benefited by a good home market—the mechanics and manufacturers and all whose labor is affected by this policy of protection, may hopefully continue their labors, and breathe easy, as the policy may now be considered permanently settled. A long course of prosperity will now visit the people.

#### Anecdote of Mr Clay.

The New York Express states that an intelligent but sturdy "Democrat," on being introduced to Mr Clay a few days since in Washington, found him agreeable enough to say to him, that though he differed with Mr Clay in politics, his wife was a good Whig, and often pressed him to change his politics. Mr Clay replied, promptly and archly, that upon many questions, "he had found it good policy to take his wife's advice!" The gentleman replied to a friend, that after that, he thought he should have to vote for Henry Clay.

The National Intelligencer was recently served with an order to discontinue (no doubt on account of its hostility to Annexation) all its papers sent from time immemorial to our Embassy abroad at the expense of the Government.—This order ought to have emanated from Mr Calhoun as Secretary of State, & was at first attributed to him; but it is now ascertained that the responsibility and the glory belong exclusively to John Tyler.

The editor of the Portland Washingtonian Journal intimates that his mouth waters for a slice of that huge loaf of cake presented to us on May Day. Come this way, friend Shirley, and you shall be abundantly supplied, for we "never forsake a brother."

The whigs of Portsmouth, N. H., are to have a great reception meeting in that town this evening, on which occasion Daniel Webster and several other distinguished men will address the meeting.

#### Two More Treaties.

The President transmitted to the Senate to-day two Treaties, viz: Treaty with the King of Wurtemburg—Treaty with the Grand Dutchy of Hesse. We confidently expect the Oregon Treaty will be negotiated before John Tyler's present term expires.—[Madisonian.]

#### British Blockade in Central America.

The *Advertiser* (Honduras) Observer of the Apolitical says: "We observe an official notice by the Superintendent, placarded on the Molo Dagua, announcing the blockade, by Her Majesty's naval forces, of the port San Juan de Nicaragua."

■ Senator Tappan it appears was severely censured by the Senate for his exposure of the Treaty. The motion was to expel, but his apology induced a modification to censure.

■ We find but little of interest in the proceedings of Congress on Monday except the agreement of the house to adjourn on the 19th of June.

■ Mr Woodbury has come out in a letter in favor of the annexation of Texas.

■ We are requested to state that Rev. Mr. Stevens of Massachusetts will preach to the Universalist Society at the City Hall on Sunday next.

The pickpockets, it is said, made a haul of about \$20,000, in the aggregate, of the Baltimore Convention.

#### MARINE INTELLIGENCE.

##### PORT OF BANGOR.

ARRIVED,  
May 15.—Scho. Centaur, Curtis, Boston.  
" Baloon, Herriman, E. Greenwich.

May 16.—Brig. Owl, Pierce, Boston.  
Scho. Gleason, Carver, do.  
" Arenzamendi, Hatch, Danvers.  
" Seven Sisters, Blanchard, N. Bedford.  
" Hero, Towle, Providence.  
" Boston, Lamphere, Salem.  
Enterprise, do, Bath.

CLEARED.  
May 16.—Scho. Exchange, Clerk, Boston.  
Sloop Patmos, Crockett, Thomaston.

A PAPER HANGINGS.  
VERY large addition just received, and will be sold low by G. W. LADD.

RECEIVED by the last Boat a good assortment of English and German Cloths, Doeskins, Cassimeres, and Satinetts, which will be sold low by G. W. LADD.

GEO. WHEELWRIGHT & SON,  
Opposite the Post Office.

# Great Attraction AT THE PENOBCOT FURNISHING STORE, AND Ready-Made Clothing Establishment, EXCHANGE STREET. Two Doors East of the Penobscot Exchange, BY OLIVER DRESSER, MERCHANT TAILOR.

THE undersigned would give notice to his friends, and the public generally that he has opened a **LARGE ESTABLISHMENT**, and has a splendid Stock of **BROADCLOTHS, CASSIMERES, and VESTINGS**, of every shade and quality.

ALSO—**TRIMMINGS FOR GARMENTS**, of every kind, and all articles in the furnishing line, all of which he has just received, new and good, from the importers in Boston, and offers them for sale at twenty-five per cent less than they have formerly been sold in this city. Call and examine for yourselves.

## The Tailoring Business

Shall be warranted to be done as well and cheaper, at this Establishment, than at any other in this city State or elsewhere.

## Fashionable Garments,

Of every description, cut and made at short notice. Cutting Garments to be made elsewhere particularly attended to.

OLIVER DRESSER, Proprietor.

Bangor, April 4, 1844.

**SANDS' SARSAPARILLA.**  
FOR THE REMOVAL AND PERMANENT  
CURE OF ALL DISEASES ARISING  
FROM AN IMPURE STATE OF  
THE BLOOD, OR HABIT  
OF THE SYSTEM,  
NAMELY:

Scrofula, or King's Evil, rheumatism, obstinate cutaneous eruptions, pimples, or pustules on the face, blotches, blisters, chronic sore eyes, ring worm or tetter, scald head, enlargement and pain of the bones and joints, stubborn ulcers, syphilitic symptoms, sciatica, or lumbago, and diseases arising from an injudicious use of the mercury, ascites, or dropsy, exposure or imprudence in life. Also, chronic constitutional disorders will be removed by this preparation.

The proprietors submit to the public the following certificate, from a highly respectable source, of a cure made by using their preparation of Sarsaparilla, which cannot but have the effect of placing beyond all doubt the curative powers of the medicine.

NEW YORK, August 3, 1842.

Messrs. Sands—Gentlemen: Under a feeling sense of gratitude inherent to us all when suddenly relieved from suffering and disease, I now, as an act of justice due to you, and with a view of relieving the afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaparilla. In the year 1832 I sailed from England in a vessel bound for Quebec, and while on the passage first discovered the disease which after proved to be a sore affliction; and truly I can say, from the crown of my head to the sole of my foot there was no soundness in me. From the time first mentioned down until the present, a period of more than ten years, I have suffered all that human nature was capable of bearing. I have been under the care of the most distinguished physicians both in this country and in England, visited Bath, Cheltenham, Bristol and Gloucester, tried various specifics, among others a large quantity of Swain's Panacea, used sulphur baths, &c. As a last resort I was induced to wrap myself in a tar ointment, keep myself secluded, shunned by all, myself also shunning. I was induced to believe my case a hopeless one.

In August last, by the advice of friends, I went to the New York City Hospital, but was told that my case was incurable. The disease now enveloped my whole body, rendering me almost helpless; the skin thickened and cracked, and blood and matter ran, and life itself became almost a burden. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, having spent nearly \$3,000 without obtaining but little relief. After using it a short time, I found myself better, and now, by using six or eight bottles, costing me less than ten dollars, I am well. Yes, I certify and declare to the world, that after spending near \$3,000 in traveling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparilla; and I now recommend it to all similarly afflicted.

Those wishing to know further particulars will find me at my residence, No. 27 Warren street, New York, where I shall be happy to communicate any thing in relation to the above cure.

PAUL BURDOCK.

Prepared and sold by A. B. SAXON & Co. Druggists and Chemists, Granite Buildings, 273 Broadway, corner of Chambers street, New York. And for sale by Druggists throughout the United States.

Price \$1 per bottle, six bottles for \$3.

The public are respectfully requested to remember that it is Sands' Sarsaparilla that has and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject, and ask for Sands' Sarsaparilla, and take no other.

G. W. LADD, Agent for this vicinity, and dealers will be supplied very low by the dozen.

June 20—Stand weekly

A GRAND CATHOLICON
